# Wireless Security and Safety by Visonic

At Visonic, we understand that protecting your home and family from intrusion and major safety threats is a primary concern; but, it's not something you want to think about all the time. That's why we focus on providing reliable and easy-to-use security solutions that protect your home or small business premises in the widest variety of situations. With a Visonic PowerMaster wireless security system, you can rest assured that your property is secure and your family is safeguarded at home.

Visonic is a leading developer and manufacturer of advanced solutions for residential, small business, light commercial intrusion security and residential premises safety. With our extensive research and development capabilities and manufacturing facilities, all Visonic products meet the highest international quality standards.

Visonic is part of the Security Products business of Tyco, the world's largest pure-play fire protection and security company.

# PowerMaster Family – with PowerG Technology

The PowerMaster family is Visonic's leading-edge line of professional wireless intrusion alarm systems for home, small business and light commercial premises. All PowerMaster systems and peripherals are based on Visonic's one-of-a-kind PowerG technology. As the most advanced wireless security technology available today, PowerG delivers everything needed to ensure maximum protection of your home or business:

- Unmatched detection accuracy
- Long-lasting reliability
- System-wide hardiness
- Effortless use
- Wireless convenience

PowerG-based security systems are well-proven in hundreds of thousands of homes and small businesses around the world.

## PowerMaster-10 G2

### Compact Wireless Home Security and Safety System

PowerMaster-10 G2 is a compact security system for homes and small offices. Using highly secure PowerG wireless technology, it delivers superior range, long battery life and unmatched wireless robustness.

- Combines both high performance and affordability
- Fast, fuss-free, wireless installations
- Supports all security and safety needs + visual verification\*
- Utilizes smoke detector buzzers for louder alarms\*\*
- Works with up to 60 wireless devices, including 8 keypads, 8 keyfobs, 2 sirens, in 30 zones

\* Visual verification with RealAlarm

\*\* With SirenNet

## PowerMaster-30 G2

### Professional Wireless Security and Safety System

PowerMaster-30 G2 is a professional security system for small commercial and large residential premises. Using PowerG wireless security technology, it meets the needs of advanced security alarm monitoring applications and heavy-duty operation.

- Fast, easy wireless installations, with prolonged battery life
- Supports all security and safety needs + visual verification\*
- Very easy to use, with voice and LCD user-interface
- Utilizes smoke detector buzzers for louder alarms\*\*
- Works with up to 124 wireless devices, including 32 keypads, 8 keyfobs, 8 sirens, in 64 zones

\* Visual verification with RealAlarm

\*\* With SirenNet

### **Control panel – PowerMaster-33 G2**

- Can be installed in a hidden location and operated via the KP-250 PG2 keypad
- Works with up to 124 wireless devices, including 32 keypads, 8 keyfobs and 8 sirens, in 64 zones

### **Two-way keypad – KP-250 PG2**

- Complete view and control of the system while the panel is hidden
- Integrated sounder

## PowerMaster-33 G2 with KP-250 PG2

### Hidden Wireless Security Alarm with Wireless Two-way Keypad

The PowerMaster-33 PG2 wireless security system enables a new level of protection for homes and small-to-medium enterprise premises. With the main components hidden away out of sight, it is significantly harder for intruders to disable or tamper with the system.

- Enhanced protection – With intelligent two-way communication, hidden and near-invisible devices
- Improved privacy – With outdoor detection and remote visual verification
- More convenience offering peace of mind – Activate alerts from anywhere onsite

**Slim Keyfob**  
KF-235 PG2

**Keyfob**  
KF-234 PG2

### Panic Buttons

**Panic Button**  
PB-101 PG2

**Panic Button**  
PB-102 PG2

### Repeater

**Repeater**  
RP-600 PG2

# Wireless Outdoor Mirror PIR Motion Detector with Integrated Camera

## TOWER CAM PG2

- Works in all light levels (day and night) – With minimum false alarms and maximum accuracy in detecting real threats
- Distinguishes between a moving person and swaying bushes or a roaming pet
- Instant image capture – Camera starts immediately with every alarm

# Wireless Vanishing Door/Window Contact

MC-302V PG2

- Extremely small and thin magnetic contact transmitter
- Virtually unnoticeable protection for doors and windows
- Available in white and brown

# RealAlarm

## Visual verification solution

- With RealAlarm, your monitoring station can remotely identify false alarms and assess the situation when an alarm is real
- Alarm-triggered photos are sent in real-time to a central monitoring station, so the staff can immediately determine the action needed to best safeguard your property and family

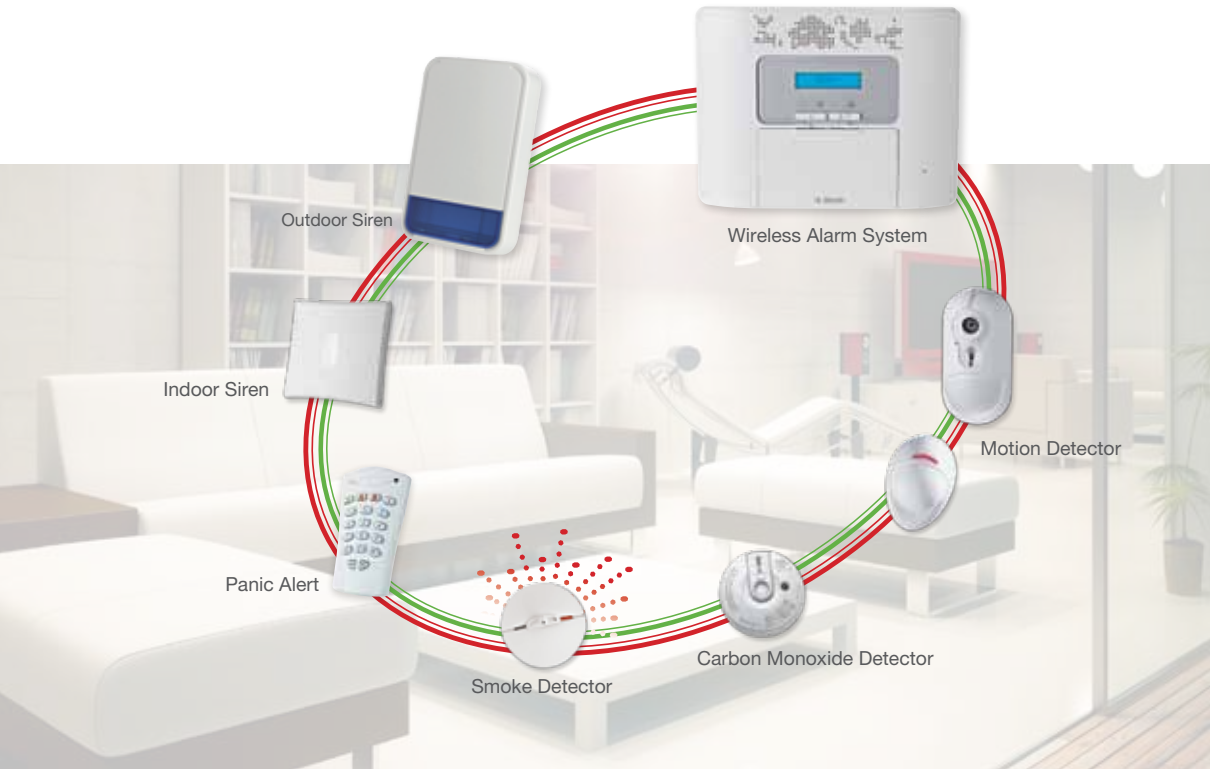

**RealAlarm**

# SirenNet

## A formidable siren network

- With SirenNet, when an alarm occurs – whether triggered by intrusion, fire, panic or safety devices – the built-in buzzers on all smoke detectors also sound the alarm. The louder noise inside the premises is more likely to be heard by people inside, potentially saving their lives
